

How to Access Simultaneous Interpretation Audio

This seminar will provide Japanese–English simultaneous interpretation using the interpretation feature in Zoom. If you wish to listen to the interpretation audio, please be sure to bring the following:

1. Your own smartphone, tablet, or PC (with the latest version of the Zoom app installed)
2. Earphones

Please note that the organizers will not provide devices for listening to the audio. If you do not bring your own device, you will not be able to access the interpretation audio.

Download Zoom: <https://zoom.us/download>

On the day of the event, please follow the steps below:

① Join Zoom

Please join the Zoom webinar using the URL (QR code) displayed at the venue.

② Select the interpretation feature

Click “Interpretation” or the globe icon  in the toolbar at the bottom of the screen.

③ Choose your preferred language

From the menu, select the language you wish to hear. The selected language will be played continuously.

- **English:** Listen to the English interpretation
- **Japanese:** Listen to the Japanese interpretation

You can switch languages at any time during the session.

Staff at the venue will be available to assist you with using Zoom.

Notes

- Operation may differ slightly on smartphones and tablets
- Please use the latest version of the Zoom app (the feature may not be available when joining via a browser)
- If the interpretation option does not appear, please try rejoining the session
- Check that your device is not muted
- Ensure your Zoom app is up to date
